

Thanksgiving Placemat

Thanksgivings Napkin rings

Plain Panels

Hoop stabilizer. I used 2.5oz cutaway. Run the placement stitches. Remove hoop from machine and lay down the front and back fabric.

Run the tackdown stitches then trim the excess fabric front and back. Finish running the satin stitches.

Do this for all the panels that do not have center designs.

Panels with center designs

Hoop stabilizer. I used 2.5 oz cutaway. Run the placement stitches. Lay down the top fabric. Run the tack down stitches and then the center design.

Now lay down the back fabric, run the tack down stitches, trim the fabric front and back then run the satin stitches to finish.

Once all the panels are stitched, assemble as shown using your regular sewing machine and a zigzag stitch.

I did start at the center and work my way out.

Run the Napkin rings the same as your panels with filled designs.
