

Bear Towel Topper

Hoop your stabilizer.

I used 2.5 oz cut away. Run the placement stitches then lay down your bear fabric (brown) run the tack down stitches and then trim the fabric. Next will run the ball at the end of his hat run the placement stitches then place the fabric run the placement stitches then trim. Next is the hat placement stitches (red) run the tack down stitches then trim.

Next run the fill stitches and finish the design remove from hoop and trim the backing away very carefully.

Back. Mirror the back with your software or use a front and back fabric on this.

Hoop your stabilizer and run the placement stitches then lay down your fabric (if not mirrored on the back also). Run the tack down stitches then trim the fabric. I also trim away the fabric where the towel hangs, I do leave the stabilizer in place. Then run the rest of the design.

Trim away the stabilizer very carefully.

Hanger.

Included is 2 hangers so you will have enough to hang from desired place use one or both as needed.

Hoop your stabilizer, Run placement stitches lay down your fabric and run the tack down stitches. Trim fabric and then finish the design. Trim the stabilizer away.
