

# Cake instructions

Hoop your stabilizer and run the placement stitches for the Panels. Lay down the top fabric and run the tack down stitches. Trim the fabric and finish the inside designs and sides.

## To Assemble

you will need 2 wide backs and 1 narrow back  
4 wide sides 2 Narrow side. 1 top and 1 bottom  
Stitch the sides together as shown then stitch to the bottom. Make sure that the fabric side of the bottom will be seen when done. Attach the top to one of the sides.

Stitch the back 3 pieces together as shown. Then stitch to the back curved edge of the cake bottom. With right sides together (fabric on the inside) start by sewing the opposite side to the top panel side. Stitch the point and rest of the sides leaving one side open to turn the cake piece right side out. Once turned stuff with fiber fill and then stitch the remaining side closed.
