

# Pirate Door Greeter

Jolly Roger.

Hoop your stabilizer. I use 2oz cutaway.

Run the first set of straight stitches to show where to lay down the fabric.

I used black for the flag background.

Run the tack down stitches and the center design. Once the center designs has stitched remove hoop from machine and add the back fabric and return to the machine and run the tack down stitches. Again remove from machine and trim the excess fabric return to the machine and run the satin stitches.

Repeat these instruction for each piece.

Trim the backing on each piece as close as possible.

Lay the hanger out on a flat surface in the way you want it and then hot glue ½ inch Ribbon to hold it.

Hang on your Favorite Pirates Door.
