

# Rose Kitchen set 2

## Silverware holder

Hoop your stabilizer, I used 3 oz cut away (Run the front first) run the placement stitches then lay down your front fabric.

Run the tack down stitches and then the center rose design. The roses are set up so you can applique them by adding small squares of fabric after the placement stitches run then run the tack down stitches and trim the excess rose fabric.

Once the rose design is finished stitching trim the excess fabric from the front and run the zigzag stitches and satin stitches.

Remove from hoop and carefully trim

Hoop the stabilizer for the back

run the placement stitches then lay down your front and back fabric. Run your tack down stitches. Then trim the extra fabric now lay the top down and tape in place to hold till done stitching

finish the holder. Carefully remove extra backing.

## Bottle Aprons:

Hoop the stabilizer, Run your placement stitches then lay down the front fabric. Run your rose design you may add more color to the roses by adding a scrape of fabric to them. First run the placement stitches lay the rose fabric down then run your tack down stitches then trim extra fabric on both roses. Finish running the rose design then lay down the back fabric and run the tack down stitches. Trim both front and back extra fabric. Finish the design and trim the stabilizer away.

## Hot pad:

Hoop the stabilizer, run the rose corners first run the placement stitches then lay down your top fabric Run the rose design, (roses can be applique if you desire see bottle apron for how to do this) once the rose design is done lay down a layer of bonded batting and your back fabric.

Run the tack down stitches then trim both front and back to the end of the design.

Side panels are run the same way.

Corners: Hoop your stabilizer and run the placement stitches. Lay down your front, batting and back fabric and run the tack down stitches then trim extra fabric run to the end of the design.

To assemble the hot pad stitch together using a zigzag stitch on your regular sewing machine.
