

Scarecrow Hanger

Hoop your stabilizer
I use 2.5oz cutaway
run your placement stitches
Then lay down your front fabric
and run the tack down stitches
and if any decoration stitches.
Then lay down your back fabric
you can use the same color as the
front or an unbleached muslin,
run the tack down stitches then
trim the front and back fabric
run the satin stitches then trim
the backing away being careful
not to cut the thread.
Repeat with all the pattern pieces
now assemble as shown either
by stitching with a zigzag stitch
or as I did with a hot glue gun.
